

Announcement- August 9, 2005: Market Transport Services Announces Lease- Purchase Program

Market Transport Services is pleased to announce that we have entered into an exclusive agreement with one of the nation's largest banks to provide our owner-operators with financing options for a tractor or trailer through a loan or lease- purchase.

This program allows drivers to benefit from their own credit score, backed by our solid reputation and 30 years of operating history, to finance a new or used tractor or trailer selected according to the operator's individual specifications.

Through participation in the program, operators will enjoy the benefits of competitive interest rates and the added convenience of weekly deductions from their settlements.

The program is only available to owner-operators under contract with a Market Transport Services affiliated company.

For current lease- purchase rates and more information regarding our program, please contact our recruiting department at (800) 241-2415 or visit us on the worldwide web at www.markettransportservices.com
